About Standlee's PremiYum™ Complete Feeding Program

Premium Food + Premium Forage

Since 1981, Standlee has grown and manufactured the highest-quality forage products for our customers' beloved animal family. Standlee Premium Western Forage proudly introduces PremiYum™ Fortified Foods for small companion animals, including rabbits, guinea pigs, hamsters, gerbils, mice, rats, and chinchillas.

Standlee's PremiYum™ Fortified Foods, paired with our farm direct Hand-Selected Forages, deliver the optimal diet that is simple for small animal owners to feed!

Designed together, Standlee introduces the only hassle-free feeding program

on the small animal market today! No more guessing. Simply mix and match PremiYum™ Fortified Food with our Hand-Selected Forages using the on-pack information and animal silhouettes to select the perfect combination.

Leveraging the nutritional content of Hand-Selected Loose Forages, our nutritionists carefully designed the PremiYum™ Fortified Foods to deliver the optimal nutrients to small animals. The extrusion process ensures uniform mixing and delivers the right amount of essential vitamins and minerals for each animal type.

Extruded Fortified Food Benefits:

- Eliminates Selective Feeding
- Assists with Proper Gut Function
- No Fractures or Respiratory Issues
- Reduces Ammonia in Animal Waste

Hand-Selected Forage Benefits:

- Stimulates Foraging Behaviors
- Eliminates Boredom
- Ensures Proper Dental Wear
